7. PROJECT REPORTS

Under this topic you will find our summarized project reports.

Village Syaphru Bensi

World Peace Stupa

The Samdheon Woesel World Peace Stupa Construction Committee asked our organization for support in the completion of the world Peace Stupa in Syaphru Bensi. A Stupa is a monument and a symbol for Buddha and the buddhism. The Stupa in Syaphru Bensi is constructed for the peace in the country, in which Lord Buddha was born, for the peace in the world as well as for all living beings, for the nature and the environment.

The planning of the Stupa has began already in 2005. The construction work is almost finished, currently they are gathering contributions for the purchase and the installation of prayer wheels around the Stupa.

World Peace Stupa

On 10 th of December 2009 we delivered an amount of NPR 11.005,-- to the project's Co-ordinator Mr. Pejung Lama.

Donation delivery in Syaphru Bensi

Project Sponsorship

In December 2009 we visited the children in the Highland Boarding School in Dhunche. For each child we brought a large packet of cookies, for which we spent altogether NPR 550,--. The children were very happy and immediately they ate some cookies.

7. COST OVERVIEW PROJECT SUPPORT IN 2010

Under this topic you will find a brief overview regarding our intended project supports in 2010.

Village Thulo Shafru

Landslide

As soon as the work is finished and the families will provide evidence about the money, which they spent for the reparations, we will deliver the rest of the donations. The costs for reparation and material are approximately NPR 70.000.

Shree Nepal Rastriya Lower Secondary School

During our visit in June 2009 we noticed that the most children in Thulo Shafru have only a shoulder bag as a school bag.

Due to the fact, that many of the children have to walk a long distance to school and they have to carry lots of heavy books, we decided to distribute school backpacks to all students.

Thereby costs in an amount of approximately NPR 22,000,-- (calculation based on 110 students) will incur.

Village Komin:

Shree Primary School Komin

In our sustainability report June 2009 we informed already about the fact that the school in Komin announced urgent need of a fence around the school terrain.

Many cows graze on the freely accessible school ground polluting and destroying the terrain. As soon as the fence is generated, the teachers like to plant vegetables and flowers in a school garden. Moreover the children can play undisturbed in nature.

The most reasonable estimate for the construction of a stone fence showed a sum of approximately NPR 200.000,--.

Poor families

In Komin, we would like to support some families with blankets and blanket covers. Thereby costs in an amount of (approximately) NPR 22,000, -- (calculation based on 10 families) will incur.

Village Thulo Barkhu:

Poor families

Also in Thulo Barkhu, we would like to deliver blankets and blanket covers to two families. The costs are calculated with approximately NPR 2.400,-- .

8. COOPERATION WITH Sundar Sansar e.V., Sindelfingen, Germany

Sundar Sansar e. V. is a new registered club in Germany, whose primary purpose is the promotion of the development aid in Nepal. We are very happy that Sundar Sansar e.
